SUMMARY

Backend Developer with 1+ year of experience building scalable SaaS and B2B applications using Node.js, Express.js, PostgreSQL, MySQL, Redis and BullMQ. Experienced in REST APIs, multi-tenant architecture, background job processing, database optimization and production deployment using Linux, Nginx and PM2.

TECHNICAL SKILLS

- **Backend:** Node.js, Express.js, REST APIs, JWT, RBAC
- **Languages:** JavaScript (ES6), C++, SQL
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis
- **Queue:** BullMQ, Redis
- **Deployment:** Linux, Nginx, PM2, AWS EC2, S3
- **Tools:** Git, GitHub, Postman, Docker (Basic)

EXPERIENCE

Backend Developer

Sep 2025 – Present

Company Name

- Developed scalable backend services using Node.js and Express.js.
- Designed REST APIs, authentication, authorization and database architecture.
- Worked with PostgreSQL, MySQL and Redis for production applications.
- Implemented BullMQ workers and asynchronous background jobs.
- Deployed applications using Linux, PM2 and Nginx.
- Collaborated on React frontend while primarily focusing on backend development.

PROJECTS

Konvo Shoes – B2B Footwear Platform — Node.js, Express.js, PostgreSQL, Redis, BullMQ 2026

- Designed and developed scalable backend APIs.
- Designed PostgreSQL schema and optimized database queries.
- Implemented asynchronous background jobs using BullMQ and Redis.
- Built authentication, order management and inventory modules.
- Deployed the application using Linux, Nginx and PM2.
- Contributed to React frontend while primarily focusing on backend engineering.

Multi-Tenant Ad Tracking Platform — Node.js, MySQL, Redis 2026

- Built a multi-tenant affiliate tracking platform handling millions of click events.
- Developed click, impression and postback APIs with reporting dashboards.
- Optimized MySQL queries using indexing and schema tuning.
- Implemented Redis-based processing and production deployment.

GIRIK Maritime Certification System — Node.js, Express.js, MySQL 2025

- Developed workflow-driven backend APIs for maritime certification.
- Implemented role-based approvals, QR verification and audit logging.

E-Commerce Backend — Node.js, Express.js, MySQL 2025

- Built APIs for products, orders, carts and checkout.
- Integrated Razorpay payments and webhook verification.

EDUCATION

Dr. Ambedkar Institute of Technology for Handicapped

Kanpur

B.Tech Computer Science & Engineering CGPA: 7.4 (2022–2026)
